DUO EASY

VIDEOKIT

Duo Easy, the easy videokit, even easier!

Duo Easy is the solution that allows you to cut further time and costs. Duo Easy is a colour videokit series that helps you to reduce time, because the installation procedure is conceived as even easier: the new VD2101AGL door station is directly powered by the bus, so you can save time. When we speak about cost reduction, we mean that- thanks to the new technology of the door station- the videokit is even faster to install. We also guarantee the Aci Farfisa high quality you are used to and we proudly declare Made in Italy. The videokit with MyLogic One or with Exhito 3 buttons monitor is available in one- or two-way versions and it can be integrated in wide Duo System installation, being in Duo System technology.
